

MDTP Replacement Materials Policy

What does registration to an MDTP seminar cover?

Registration to an MDTP seminar covers attendance at the seminar (approximately 8.5 hours of instruction plus a question/answer session at the conclusion of the seminar), seminar materials as a ***single download*** from our website (PDF of course presentation slides and MDTP manual – a link is provided via email the week before the seminar), CEU processing if the seminar is within the USA, access to the MDTP certification post-test and provider certificate upon passing the post-test, listing in the global MDTP provider data base (a search engine that lists all current MDTP providers and is ‘searchable’ by other providers and the public at large), and a unique MDTP provider number that may be used for discounts of future FDI offerings (and possibly other offerings), and future MDTP/FDI functions (web forum and more).

Please note: When you download your course materials please store the cyber files in a safe and convenient location. You can print these files, but you are not authorized to share them.

Due to the cost of providing additional online/download materials we do not offer replacement or additional materials upon request.
